For other kinds of applications or use at higher concentration levels, a new evaluation may be needed: please contact [lp@kcsburningaromas.com](mailto:lp@kcsburningaromas.com). These recommendations are meant for the use of fragrance compounds in perfumery products and have been established by the Technical Committee of IFRA after careful examination of the studies from RIFM, the industry and appropriate scientific literature. It is the ultimate responsibility of our customer to ensure the safety of the final product (containing the fragrance) by further testing if needed.
